THIS IS UNEVALUATED INFORMATION

1. The Jan Sverma (formerly Walter) plant, Prague-Jinonice*, now produces only Rolls Royce jet engines. Seven were completed by 15 April 1952; ten are currently in production. The immediate production target is the completion of one unit per day. The current low production is caused by lack of special parts which are to be delivered by the USSR.
2. The factory has been enlarged by addition of a new wing. The entire plant is to be subterranean. Excavation work is going on under the Cerna Vrch hill in Prague-Kosire.

* [] Comment: This appears to be the plant which has been known as the branch plant Walter of the Skoda Works, Trebizskeho street 41, Prague-Kosire. Jinonice is a part of Kosire.
